Advantages of Working with Power Home Tech Services Limited;

- Provide Solutions by being a Customer's Consultancy
- We go the Extra mile to keep our Customers Delighted by Providing the best After Sales Support
- We are a Dynamic team of Professionals Committed to making a Real difference in the Lives of our Clients

Competitive Skills;

- Our solutions are root-caused based, which will enable you to get the Maximum benefits of our services
- Our technicians have the problem-solving ability and carefully assess your systems

Delivery Performance and Reliability;

- Our Performance Regarding Preventive and Corrective Maintenance has never dipped under 94%. Our Preventive Maintenance is ALWAYS 100%. The Corrective Maintenance is reliant on availability of Spares to enable our technical teams to do the repairs. We respond within 24 hours once request has been logged onto our system for scheduling of our technical team's call out by the Operation Manager. Preventative Maintenance is Planned annually and then implemented monthly. Due to the economic climate many corporate companies service their air conditioning units every 6 months. Air Goes, once the service is completed, gives an Asset List with the signed Service Record, called the Job Sheet.

WHS & Quality Assurance;

- At Power home tech services WHS is a high priority. We work safely and efficiently to ensure close attention is paid to the quality of the working environment. Quality Assurance is also a priority with QA inspection being carried out at regular intervals to ensure that a high standard of workmanship is maintained. We also have QA procedures, checklist that we use to schedule maintenance and ensure you are working with safe, functional and quality system and equipment.
